

## Safety Data Sheet (SDS)

Product Name : Fastron Techno 10W-40  
Revision : 0  
Validation Date : October 24<sup>th</sup>, 2025  
Valid Period : 5 (five) years

**PT Pertamina Lubricants**

Grha Pertamina, Pertamina Tower 15<sup>th</sup>-17<sup>th</sup> floor  
Jl. Medan Merdeka Timur No. 11-13  
Central Jakarta 10110 Indonesia

## SAFETY DATA SHEET

### 1. Identification

- Product identification/name : Fastron Techno 10W-40
- Identification number : 982
- Recommended use of the chemical and restrictions on use : Fastron Techno 10W-40 is highly recommended for the latest car generation from the leading car manufacturers that operate under extreme condition
- Manufacturer's details : **PT Pertamina Lubricants**  
Grha Pertamina, Pertamax Tower 15th-17th floor  
Jl. Medan Merdeka Timur No. 11-13  
Central Jakarta 10110 Indonesia  
T : +62 21 3190 7190
- Emergency phone number : 135

### 2. Hazard Identification

- Classification of the product : Not classified as hazardous material according to GHS.
- GHS label elements : No symbol
- Signal word : No signal word
- Hazard statement(s) :  
Physical hazard  
No hazard statement  
  
Health hazard  
No hazard statement  
  
Environmental hazard  
No hazard statement
- Precautionary statement(s) :  
General  
No precautionary statement  
  
Preventive  
No precautionary statement  
  
Response  
No precautionary statement

## SAFETY DATA SHEET

### 2. Hazard Identification

Storage  
No precautionary statement

Disposal  
No precautionary statement

- Pictogram : No pictogram
- Other hazards which do not result in classification : No other hazards

### 3. Composition/Information on the Ingredients

- Chemical identity : Hydrocarbon petroleum and additive
- Common/trade name/synonym : Fastron Techno 10W-40
- Mixtures

| Chemical Ingredients | CAS Number | % wt as product |
|----------------------|------------|-----------------|
| -                    | -          | -               |

### 4. First Aid Measures

- Description of necessary first aid measure:
  - Eye contact : Rinse with plenty of water. If irritation occurs, refer to a physician.
  - Skin Contact : Wash the contaminated skin with water and soap. Remove the clothes. Get medical advice if further irritation occurs immediately. Wash the contaminated clothing before reuse.
  - Inhalation : Remove victim to fresh air and keep at rest in a comfortable position for breathing. If respiratory or mucus membrane irritation occurs, get medical advice.
  - Ingestion : Do not give anything through mouth that can induce nausea or vomiting. Get medical advice if emergency condition occurs.
- Most important symptoms/effects (acute and delayed):
  - No data
- Indication of immediate medical attention and special treatment needed:
  - No data

### 5. Fire-fighting Measures

- Suitable extinguishing media : Carbon dioxide, water, water, and dry chemical
- Specific hazards arising from the chemical
  - Other hazardous combustion products : No other hazardous combustion
  - Flash point °C : 254 (ASTM D-92)

## SAFETY DATA SHEET

### 5. Fire-fighting Measures

- Hazardous chemical decomposition : No data available
- Special protective actions for fire :
    - a. Dry Chemical  
Spray to the origin of fire in the same direction with the wind.
    - b. Foam  
If fire is in a container, spray the foam to inner wall of the container and not to the ignited liquid in the same direction with the wind. If it is spill, spray to the origin of fire in the same direction with wind until all the fire covered. Do not dispose the spill to the drainage, sewage system, and clean water source (drinking water).
  - Special protective equipment : If fire occurs in limited/indoor/closed area, fire fighter operator must wear Self-Contained Breathing Apparatus (SCBA).
  - Hazchem code / emergency action code : N/A

### 6. Accidental Release Measures

- Personal precautions, protective equipment, and emergency procedures  
Keep away from fire sources. Avoid direct contact with skin , eye, and clothes (see section 8).
- Environmental precautions  
Prevent oil spill goes into drainage, sewage system, and soil.
- Procedures  
Report spill according to the valid system and procedures. If spill is estimated can goes into drainage or streams, do immediate report to the authority.
- Methods and materials for containment and cleaning up  
Do oil spill control with oil spill kit (absorbents: sawdust, sorbent pad/pillow, etc, and other fire retardant material). Clean and dispose cleaned material in the right waste disposal.

### 7. Handling and Storage

- Preventive procedure for safe handling
- Precautions for safe handling  
Do not get in eyes, skin, and clothes. See section 8 for personal protective equipment suggestions when handling this product. Do not inhale vapor from hot material, wash after use. Avoid release/spill.
- Conditions for safe storage (including any incompatibilities)

## SAFETY DATA SHEET

### 7. Handling and Storage

Store in closed and labeled container. Keep away from oxidizer, hot material, or combustible materials. Store at temperatures not exceeding 50 Celsius degrees.

- Recommended/compatible packaging material  
Use mild carbon steel or high density polyethylene for container or container coating.
- Other information/advice  
Container made from polyethylene cannot be exposed to high temperature because it is able to change the shape.

### 8. Exposure Controls and Personal Protection

- Control parameters
 

|                        |                     |
|------------------------|---------------------|
| Exposure limits        | : No data available |
| Biological limit value | : No data available |
- Appropriate engineering controls :
 

|             |                                                                      |
|-------------|----------------------------------------------------------------------|
| Ventilation | : In common condition, special ventilation requirement is not needed |
|-------------|----------------------------------------------------------------------|
- Individual protection measures (such as personal protective equipment) :
 

|                          |                                                                                                                                                                                                                                                                                                          |
|--------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Respiratory protection   | : In common condition, no special requirements needed.                                                                                                                                                                                                                                                   |
| Eye protection           | : Use eye protective equipment (chemical goggles dan face shield) if material heated.                                                                                                                                                                                                                    |
| Hand protection          | : In common condition, no special requirement needed. If there is hand contact probability, use standardized and relevant gloves (e.g: EN374, US: F739) which has been agreed and made from proven material that can give protection from the chemical, neophrene or neophrene rubber gloves or nitrile. |
| Skin and body protection | : No special work clothing (without coverall) for skin or other body protection.                                                                                                                                                                                                                         |
- Hygiene Practices :
  - No data

## SAFETY DATA SHEET

### 9. Physical and Chemical Properties

|                                                  |   |                   |               |
|--------------------------------------------------|---|-------------------|---------------|
| SAE Viscosity Grade                              | : | 10W-40            |               |
| Density at 15°C, kg/L                            | : | 0.8524            | (ASTM D-4052) |
| Appearance (physical state, color, etc)          | : | 3.5               | (ASTM D-6045) |
| Odor                                             | : | No data available |               |
| Odor threshold                                   | : | No data available |               |
| pH                                               | : | No data available |               |
| Pour point, °C                                   | : | -30               | (ASTM D-5950) |
| Initial boiling point and boiling range          | : | No data available |               |
| Flammable properties (solid, gas)                | : | No data available |               |
| Flash point (COC), °C                            | : | 254               | (ASTM D-92)   |
| Evaporation rate                                 | : | No data available |               |
| Flammability (solid, gas)                        | : | No data available |               |
| Lower/upper flammability and/or explosive limits | : | No data available |               |
| Vapor pressure                                   | : | No data available |               |
| Vapor density                                    | : | No data available |               |
| Relative density                                 | : | No data available |               |
| Solubility                                       | : |                   |               |
| - Water solubility                               | : | No data available |               |
| - Other solvent solubility                       | : | No data available |               |
| Partition coefficient: n-octanol/water           | : | No data available |               |
| Auto-ignition temperature                        | : | No data available |               |
| Decomposition temperature                        | : | No data available |               |
| Kinematic viscosity at 40°C, cSt                 | : | 93.10             | (ASTM D-7279) |

### 10. Stability and reactivity

- Chemical stability and reactivity : Stable for normal use and under normal condition
- Possibility of hazardous reactions : No data available
- Condition to avoid : Temperature above normal condition
- Incompatible materials : Strong oxides, strong acid and base, halogen and halogenated components.
- Hazardous decomposition products : No data available

### 11. Toxicological Information

- Acute toxicity
  - Skin corrosion/irritation : No data available. It is not expected to cause mild irritation based on test to similar material and component.
  - Serious eye damage/ irritation : No data available. It is not expected to cause eye irritation based on test to similar material and component.

## SAFETY DATA SHEET

### 11. Toxicological Information

- Respiratory/skin sensitization : No data available. It is not expected that inhaling material fog or vapor after heating will cause irritation and upper respiratory problem.
- Germ cell mutagenicity : No data available. It is expected that it is not mutagen based on test to the components.
- Carcinogenicity : No data available. It is expected that it is not carcinogen based on test to the components.
- Reproductive toxicity : No data available. It is expected that it is not reproductive toxicant based on test to the components.
- Systemic Target Organ Toxicity-single exposure : No data available. It is expected that it does not cause organ damage because of single exposure.
- Systemic Target Organ Toxicity-repeated exposure : No data available. It is expected that it does not cause organ damage because of long term or repeated exposure based on test to the components.
- Aspiration hazard : No data available. It is expected that it does not give aspiration risk based on its materials physical-chemical properties
- Information on the likely routes of exposure : No data available
- Symptoms related to the physical, chemical, and toxicological characteristics : No data available
- Delayed and immediate effects and also chronic effects from short and long term exposure : No data available
- Numerical measures of toxicity : No data available
- Interactive effects : No data available
- Where specific chemical data are not available : No data available
- Mixtures : No data available

### 12. Ecological Information

- Ecotoxicity :  
Materials – May cause harm to aquatic organism. May cause long lasting harmful effect to aquatic life. Soil seepage may cause soil water contamination or aquifer. No potential to cause air pollution and ozone layer damage.
- Persistence and degradability :

## SAFETY DATA SHEET

### Biodegradation:

Lubricant base component – Suspected has biodegradation properties

- Bioaccumulative potential

This product is estimated that will not accumulate biologically through food chain in the environment.

- Mobility in soil :

Lubricant base component – Low solubility, floating, and suspected can move from water to land. It is also suspected that will crack to sedimentation and wastewater particle.

- Other adverse effect : No data

*\*Information given is based on available material data, material component data, and similar material data.*

## 13. Disposal Considerations

- Disposal Methods

- Product Disposal

Wasted oil may not dispose with domestic waste and must be manage according to the valid government regulation. As alternative, the waste disposal can be done by authorized third party.

- Packaging/container Disposal

Two-hundred nine (209) capacity drum must be in empty condition, labeled, and returns to the supplier or authorized party that have license to do recondition drum waste. Uncontaminated metal and plastic packaging can be recycled if possible, or disposed as domestic waste.

## 14. Transport Information

- ICAO/IATA 1

UN Number : Not regulated

UN Proper Shipping Name : Not regulated

Transport Hazard class(es) : Not regulated

Packing Group (if applicable) : Not regulated

Environmental Hazards : Not regulated

Special Precautions for User : Not regulated

- ICAO/IATA II

UN Number : Not regulated

UN Proper Shipping Name : Not regulated

### 15. Regulatory information\*

- Safety, health, and environmental regulations specific for the product in question :
  - Globally Harmonized System of Classification and Labelling of Chemical (GHS), Rev. 4th.
  - Work Health and Safety Act and Regulations (WHS Act and Regulations)
  - Code of Practice Preparation of Safety Data Sheets for Hazardous Chemicals (Safe Work Australia)
  - Code of Practice Labelling of Safety Data Sheets for Hazardous Chemicals (Safe Work Australia)
  - Registration, Evaluation, Authorization and Restriction of Chemical (REACH)
- List of Substances are compliance with:
  - The National Industrial Chemical Notification and Assessment Scheme (NICNAS)
  - The Australian Inventory of Chemical Substances (AICS)

## SAFETY DATA SHEET

### 16. Other information

- SDS validation date : October 24<sup>th</sup>, 2025
- SDS revision date : October 24<sup>th</sup>, 2025
- Key/legend to abbreviations and acronyms used in SDS :
  - SDS – Safety Data Sheet
  - CAS – Chemical Abstracts Service (unique identity number for substance and mixture)
  - SAE number – Society of Automotive Engineers (code used for viscosity specification of lubricant)
  - ASTM – American Standard Testing and Material
  - UN Number – United Nations Number (used for transportation classification)
  - ICAO/IATA – International Civil Aviation Organization/International Air Transport Association
  - IMDG – International Maritime Dangerous Goods
  - USCG Compatibility – US Coast Guard Compatibility (classification of chemical contained cargo which transported with ship)
- Key literature references and sources for data used to compile the SDS : No data
- Further information :
  - Data in this SDS is available only for material/product above (Fastron Techno 10W-40).
  - It is not applicable for particular process which is not suggested or mixed with other materials.
  - The risk of this product condition and compatibility for other use, which is not guaranteed by the company, is borne to the user. Precaution sign and handling procedure of this product must be obtained by user and staff who use the product.
  - Do not change or revise this document except with legal approval.

### GENERAL NOTES

### FOOT NOTE

## SAFETY DATA SHEET

---

**Additional information** : This document contains important information to ensure product storage, handling, and application will be done safely.

**Revised parts**: revised parts of this document is underlined and italic.

**Application**: this product cannot be used for other application besides recommendation in section 1 without any suggestion from the supplier.

**SDS distribution**: information in this document must be obtained and accessed by anyone who handles the product

**Terms and Conditions**: this information is made based on actual knowledge and intended to describe the product for health, safety, and environment requirements. Therefore, it cannot be interpreted for particular material guarantee of the product.
